immaculatemunde@gmail.com | My LinkedIn | My Github

Passionate Front End Engineer

EDUCATION

ALX Africa – Nairobi, Kenya. | Certifications
Front End Development.

Jomo Kenyatta University of Agriculture and Technology - Kiambu, Kenya.
Bsc. Mathematics and Computer Science.

EXPERIENCE

Education For All Children (EFAC) | Peer Mentor (Volunteer) │ March 2023 – Present
- Support and mentor younger EFAC scholars in academic planning, technology exposure, and personal development
- Facilitate peer-led sessions on coding, time management, and scholarship applications

Adbud Tech Limited | Front End Developer | September 2024 - February 2025
- Transitioned the company website from WordPress to a custom and scalable one.
- Improved SEO, load times, and conversion rates.

PROJECTS

Payee | NextJS, Tailwind, FastAPI, PostgreSQL | *LINK*
- Built the front end for a payments link app that enables users to manage their finances.
- The system uses microservices architecture, GitHub Actions, and CI/CD.

Rembeka Hub | *NextJS, NodeJS, Express, Prisma, Redis, PostgreSQL, JWT, Azure Cloud | LINK*
- Built the front end for a custom hub to connect beauty and cosmetic vendors.
- Main features of the System: Authentication, Product and Services Listing, Specialized Profile for vendors.
- Utilized the Singleton design pattern to ensure a single instance of the Token Manager, facilitating centralised control over token management of the hub.

Eventure Ticketing System | *React, MongoDB, Express, Redis, Mailtrap, JWT, Digital Ocean | LINK*
- Built the front end for an events ticketing system that allows organisers to create and manage events and allows users to book events.
- The system uses microservices architecture, GitHub Actions, and CI/CD.
